

REMARKS

Applicants are filing this Amendment in response to the *Ex parte Quayle* Action dated August 20, 2007, and Applicants believe that the Amendment is fully responsive to the *Ex parte Quayle* Action for at least the reasons set forth herein.

At the onset, Applicants thank the Examiner for taking the time to speak with Applicants' representative in a telephone interview on September 21, 2007 clarifying paragraph 4 of the Action.

Applicants note that Claims 26, 27, 29, 33 and 46 have been amended herewith to provide antecedent basis for the detection signal, i.e., a detection signal. No new matter has been added to the application by way of the aforementioned amendments.

Applicants submit that the amendments to the claims obviate the objection to the claims set forth in paragraph 1 of the Action.

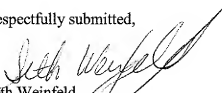

Applicants submit herewith a Supplemental Declaration executed by the inventors pursuant to 37 C.F.R. § 1.175(b)(1). Applicants submit that the Supplemental Declaration is compliant with the rules. Accordingly, Applicants submit that the Supplemental Declaration obviates the rejections set forth in paragraphs 2 and 3 of the Action.

Lastly, Applicants note that the bracketed material in Claims 38 and 40 has been removed from the claims as suggested. Applicants submit that the amendment obviates the format objection indicated in paragraph 4 of the Action. Applicants respectfully request that the Examiner withdraw all of the objections and rejections.

Based upon the foregoing, Applicants submit that the reissue application is now in condition for allowance, and a Notice of Allowance is respectfully requested. If the Examiner

believes a telephone conference might expedite prosecution of this case, it is respectfully requested that he call Applicants' attorney at (516) 742-4343.

Respectfully submitted,

Seth Weinfeld
